# Severe Weather Outlook

## Wednesday, August 31, 2016

# Hazardous Weather

Another day of abundant Monsoon moisture streaming over the Borderland from the Gulf of Mexico. Expect a lot of clouds and another relatively cool day. There should be scattered to numerous showers and thunderstorms across most of Far West Texas and Southern New Mexico. Some of these storms will likely produce heavy to very heavy rainfall, which increases the potential for localized flash flooding for Wednesday and Wednesday evening.

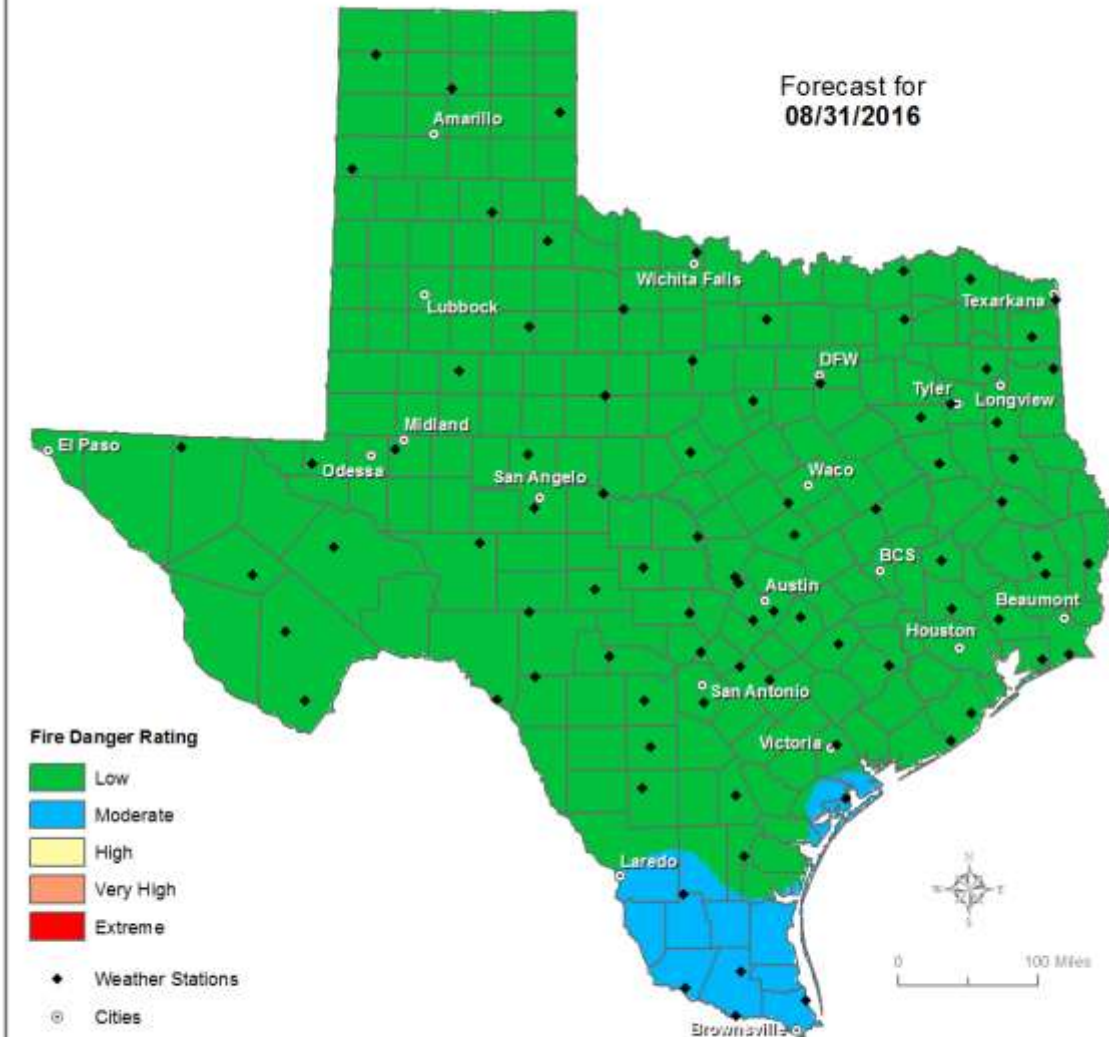

# Weather Warning/Advisories Issued
